PHOTONIC INTEGRATION CONFERENCE

The Photonic Integration Conference takes place during the [Photonics Applications Week](#) (Sep 30 - Oct 5 2018)

Photonics is the key enabling technology engine needed to keep the globe communicating and connected in the 21st century. It provides the bandwidth, speed, reach and flexibility needed to run exciting new applications that everyone knows – healthcare & life sciences, internet of things, M2M, social media, big data, datacenters, cloud computing and voice over IP. It's the most energy efficient technology to scale up all these services.

Join us for a one-day executive conference explaining why integrated photonics is vital to keep our world communicating and connected in the 21st century. We're bringing the global experts to Eindhoven, the undisputed innovation champion of light technologies.

PHOTONIC INTEGRATION CONFERENCE

Conference

The conference consists of a plenary session with keynote presentations from internationally recognised leaders in their respective fields and several parallel sessions which address specific elements of the photonics value chain. The conference program is being developed, so please visit our [conference programme](#) for the latest programme updates or stay up to date via our [newsletter](#).

The conference attracts a wide range of industry stakeholders and includes full industry coverage from component suppliers to manufacturers, from software developers to end-users. Plus, it offers you extensive network opportunities with business partners, buyers, legislators, and end-users.

PHOTONIC INTEGRATION CONFERENCE

Exhibition

Are you interested in showing your products and/or services to a wide, though targeted group of interested professionals? Join the exhibition of the Photonic Integration Conference!

Whether your company is big or small, exhibiting at the Photonic Integration Conference gives your company a powerful platform for:

- Increased market visibility and presence.
- Brand building.
- New product presentation and demonstrations.
- Having face-to-face meetings with new and existing clients.
- Obtaining full international media exposure.

The Expo is the perfect platform for exchanging knowledge and experience. Join us and become partner and exhibitor in this unique event.

PHOTONIC INTEGRATION CONFERENCE

Communication

Extensive communication about the Conference and Expo will take place via various channels. Exposure for partners and exhibitors will be attained via direct e-mailing to an extremely top-quality and exclusive database.

We will communicate about the event in the following ways:

- Conference and Expo websites and news sections
- Twitter
- Facebook
- LinkedIn
- Several newsletters which we sent out from April 2018 onwards.

PHOTONIC INTEGRATION CONFERENCE

Media

The communication strategy also includes online advertisements, button-advertisements, advertisements in printed magazines and notification of the event on the websites of the supporting media partners.

The event will be equally supported in the blogs, trade press, newsletters, websites and twitter of the international media partners.

Venue

The conference and expo take place at the High Tech Campus Conference Center in Eindhoven, The Netherlands.
